

An exclusive lens covering the entire vision field for reading, ensuring perfect sharpness in both broad and near at hand vision.

TOKAI provides a high-quality field of vision fit you perfectly.

## **θ** design on the basis of human ergonomics

A smooth 1.50D power transition in addition to a wide centred vision field is the result of ergonomic human eye analysis: head and eye movements, including upper body movement when looking at objects at reading distance.

**⚠ Do NOT use for driving**
